Announcing Haworth's 2023 BIC Dealers

32 Preferred Dealers earned the designation for 2023

It goes without saying that 2022 was one of the toughest, most unique years for our business—maybe ever. The market remains highly competitive. Customers are more sophisticated, more demanding than ever, and the ever-changing business environment continued to force us all to adapt in different ways. The competition is good—and getting better. In a world that

requires agility and adaptability more than ever before, Haworth dealer principals are required to invest in infrastructure, savvy marketing, and great people.

Haworth's network of over 250 organizations rise to that challenge each day—doing the heavy-lifting required to find, win, thrill, and keep long-term customers. As part of our continuous improvement heritage, these dealers compete against their peers to be recognized as the “best” of the Preferred Dealer “class.”

We are pleased to announce that 32 dealers have earned the distinction of 2023 Best in Class recipients. Each has distinguished themselves for their ability to excel in area of market development (finding customers), sales (winning customers), and operational excellence (thrilling and keeping customers), all while leading strong and sustainable businesses in the face of unprecedented times.

Please join us in congratulating Haworth's 2023 Best in Class dealers:
